Righteer months after the death of the latter prother, with whom he had lived, the patient fell iii with rulmonary tuberculosis, which manliestly was of recent date, as repeated examinations before showed him to have healthy lungs. Deweyre discovered a num ber of bedbug bites on the patient's body, and as the house was infested by the insects he suspected them as possible carriers of the infection. Sixty per cent. of the bugs, crushed to a pulp and filtered, were found to contain tubercular bacilit. Three guinea pigs into whom the pulp was injected died of general tuberculosis. Pin Money.

Among the presents formerly offered as New Year's gifts were plns, which were first made in the early part of the sixteenth century. However trifling such gifts might now appear, it was then highly valued, as previous to the invention of pins clumsy wooden skewers were in use for fastening garments. In this manner arose the term "plu money" is marriage settlements, the bride stipulating for or the groom voluntarily conceding a cer tain annual allowance with which to pu chase what was then deemed a luxury.

In time the term came to be applied in the more extended sense to signify any sum over which the wife shall have absolute control independent of her husband. Though no longer used in legal instruments, the term i still retained colloquially, as denoting a stipulated sum for the wife's private use.
